<b>DESIGN</b>					
1. Document is subdivided into logical supporting pages or, if presented as a single page, it offers a table of contents with section links to avoid scrolling through entire document. <u>Please explain your feedback</u>	1	2	3	4	5
2. The site displays sound design principles, including uncluttered space, subdued backgrounds, and coordinated colors. <u>Please explain your feedback</u>	1	2	3	4	5
3. Navigation is intuitive, easy to understand, and provides flexibility in movement. <u>Please explain your feedback</u> I have a small concern about the "Tutorial" page. Right now it has only one tutorial link, so it is easy to navigate back to the "Tutorial" page by just clicking the "Back" arrow or "Tutorial" on the title bar. However, as the volume of information goes up the navigation won't be an easy. It is better either to create some drop-down menu for the "Tutorial" button and giving access to all the link (or at least a group of links) or to use a left-bar to access the links.	1	2	3	4	5
4. Homepage is linked from all subsequent pages. <u>Please explain your feedback</u> Yes, it is easy to navigate as we can see the title bar having all the buttons.	1	2	3	4	5
5. Multimedia elements have a clear purpose. <u>Please explain your feedback</u>	1	2	3	4	5
6. Multimedia elements load quickly or file size is indicated with user option to download. <u>Please explain your feedback</u>	1	2	3	4	5
7. Images include alt, height, and width attributes and offer initial thumbnail graphic if file size is large. <u>Please explain your feedback</u>	1	2	3	4	5
8. Text is easy to read and contrasts with background. <u>Please explain your feedback</u>	1	2	3	4	5
